Width outside (mm)	406
Height outside (mm)	203
Carton Length (mm)	584
Carton Width (mm)	419
Carton Height (mm)	215
Shipping Weight (kg)	5,3

Description

Available in 2U, 3U, 4U, and 6U sizes, SKB Shallow Racks are roto-molded of Polyethylene (LLDPE) for extra strength and durability. The exteriors feature SKB's recognizable bar design that signifies the rack unit size on the front and rear lids. Molded bars on top and bottom also provide interlocking capabilities, allowing you to easily and securely stack them with SKB's Standard Roto Racks and Roto Rolling Racks, making transport even more convenient and secure. Lids include rubber gasket seals to keep water out. Other standard features include front and rear steel threaded rails and rack screws (10-32 thread), recessed steel Mil-Spec twist latches, flush carry handles, and non-slip rubber feet. All Shallow Racks are 27 cm deep from front rail to rear rail.
